I have worked in the Healthcare field for 45 years. I currently read and monitor all the heart rhythms at John F. Kennedy Memorial Hospital, as well as do Unit Secretary on various floors, including post op, Med Surg, and Telemetry.

4. Please describe the area(s) of expertise/contribution you feel you can make to further the mission of MVCSD:

Because of my work experience, I work extensively with the public, with Doctors, Nurses, Family Members, as well as Administration, and Subordinates, and I am versed in State Regulations and laws in this field. Before doing the Monitor Tech position at JFK for the last 20 years, I was a Crew Leader at Hi-Desert Medical Center for 10 years, and a Supervisor at the Long Term Care Facility for 15 years prior to that. I know how to deal with the Public, Superiours, Subordinates, and Professionals on a daily basis. I also know how the politics work in the Industry, which is a plus in this position. I believe this experience can help contribute to being a PUBLIC SERVANT, one which represents the interests of our community, and I know how to fight for my Crew, my Coworkers, as well as the interest of the business that I work for. Please consider me for this position and Thank you!

I have never served as a Board Member, however I have served in the Church setting for 40 years as an example to the Congregation and a Musician, with no pay.

6. What other volunteer commitments do you currently have?

I am deeply concerned with the way our Country has gone because of politicians who are not there for The People, but are there to serve themselves off The People, and who take money under the table to profit themselves, while selling out their Country to our enemies. I come from a military family, served 6 years in the Cadet Corps, and 2 years in the California State Militia, all volunteered with no pay, in order to learn the discipline necessary to be a servant. The last thing our town, State, and Country needs is another "politician." I am willing to become a "Public Servant" who fights for freedoms, all the way down to the local level.

7. The MVCSD Board of Directors meets on the third Wednesday of every month at 6:00 p.m. The meeting generally lasts about one (1) hour. Do you have any standing commitments that create a scheduling conflict?  Yes  No

8. **ESSAY QUESTION:** Why are you interested in serving as a Board member for the MVCSD? Please limit to 500

words or less. I have lived in the Morongo Basin almost my whole life, born out on base at 29 Palms Marine Base in 1960. My Dad was born here as well. My Great Grandfather and Great Grandmother were the very first homesteaders in Yucca Valley starting in 1910, Joseph and Mary Herd. They watered their horses at the old barn that used to be in the Covington Park Preserve. They knew very well the Warrens who lived there, and stayed with them when traveling down the hill to Banning and Redlands. We have generations in the Hi-Desert, and I have seen changes that do not benefit the residents of our community, but benefit outside interests. I believe it is time for me to start becoming more active in our community in order to preserve the heritage of our children for future generations. The residents of this community should never be "sold out" to outside interests that do not benefit our community. We should be looking out for our own, always vigilant, always guarding our freedoms, our interests, our resources, and our future. All it takes, is someone who will stand and represent THE PEOPLE, instead of themselves. Please consider me for the job, and Thank you once again.

9. Please share any other information you feel important for consideration of your application to serve as an MVCSD Board member.

I have historical photos, know all the old Indian trails, and have some VERY interesting stories that I can tell about our history. I am currently in contact with the Historic Society to relate these to record, as to preserve The Morongo Basin's history and heritage. It would be a very good thing to be able to relate these to our kids, growing up in a World where there have been those who have been trying to erase our history. Maybe these facts can be related to our youth as a point of reference for them, when others would try to give them alterior and even false premises?
